

# Lewiston's 2019 Clean-Up Assistance Week

**April 22 – April 26, 2019**

## **What Is Clean-Up Assistance Week?**

During the last full week in April (**Monday, April 22, through Friday, April 26**), Lewiston's Public Works Department will collect brush from residential properties (*butt ends to face the street*).

Quantities are limited to no more than one (1) standard pick-up truck load per residence.

All brush to be collected by City staff must be curbside no later than Sunday, April 21. City staff will be collecting the curbside brush throughout the week.

Once City staff has collected brush from a given street, they WILL NOT RETURN to collect brush from that street.

In addition, Lewiston Public Works Department staff **WILL NOT BE COLLECTING THE FOLLOWING:** tree stumps; wood greater than 12" diameter; or any demolition wood such as fencing, old decking, or wood from construction/demolition projects.

**Will the Solid Waste Facility  
Waive Tip Fees / Use of the ePass  
During This Week?**

No. The City of Lewiston's current program allows residential property owners to set up an ePass account for this service.

The ePass account is good for one (1) year from the date of issue.

There is no charge to establish the ePass account, and this can be done at the Lewiston Treasurer's Office (second floor, City Hall, 27 Pine Street) **OR** at the Scale House at the City's Solid Waste Facility, 424 River Road.

Once the account has been set up, the resident can dispose of up to 1,000 pounds of household waste (construction & demolition waste, waste refrigerated appliances, old furniture, yard debris, waste tires, electronic waste items, etc.) at no cost.

Once the 1,000 pound limit has been exceeded, residents will be charged the nominal disposal fee (\$93/ton; \$95/ton for construction and demo waste) for any overage.

Residents who are tenants of rental property may also obtain an ePass account but will be required to pay \$20 for this service.

Residents can dispose of their household waste at the Solid Waste Facility during normal business hours:

- 7:15 AM – 2:45 PM (Weekdays)
- 8:00 AM – 11:50 AM (Saturday)

### **GATE CLOSING INFO**

The gates are closed at the above-listed closing times. Please arrive 15 minutes before closing to assure you have adequate time to dispose of your waste items.
